ABOUT US

Rooted in Tradition. Driven by Innovation. Inspired by Wellness.

Paartha Ayurveda Pvt. Ltd. is a legacy brand born from the profound wisdom of Ayurveda, nurtured over generations and refined through scientific innovation. With roots tracing back to 1976, our story began humbly in Nakur, Uttar Pradesh, with a small herbal medicine shop founded by the visionary duo—Mr. Padam Prakash and his son, Mr. Anil Kumar Goel.

From its earliest days, Paartha Ayurveda has been guided by a deep respect for India's ancient healing system and a commitment to make authentic Ayurvedic solutions accessible to all. Mr. Anil Kumar Goel, even in his early years of limited involvement, demonstrated an innate passion for Ayurveda. While assisting in the family-run shop, he also engaged in independent research on herbal formulations and actively sourced raw medicinal herbs, laying the groundwork for a future-ready Ayurvedic enterprise.

In 1989, the shop was formally registered in Saharanpur, marking a significant milestone in its professional journey. This evolution reached new heights in 2019 with the formation of Paartha Ayurveda Private Limited, a registered pharmaceutical company. Under Mr. Anil Kumar Goel's leadership, the company transitioned from traditional practices to a structured, scientific approach—combining classical Ayurvedic principles with contemporary production and quality standards.

Today, Paartha Ayurveda is proudly helmed by two generations: Mr. Anil Kumar Goel and his son, Mr. Shivam Goel, who represents the third generation of this Ayurvedic legacy. Bringing a dynamic, modern perspective to the business, Mr. Shivam Goel's hands-on experience spans herb identification, raw material procurement, industry visits, and participation in national Ayurveda summits. His involvement has been instrumental in aligning the company's vision with current health and wellness trends.

In 2021, Paartha Ayurveda acquired its dedicated industrial premises to scale operations and meet growing demand. From 2019 to 2023, the company has made significant strides across several key areas:

- Research & Development
- Infrastructure & Manufacturing Facilities
- Production Technologies & Machinery
- Laboratory Setup & Quality Assurance
- Innovative Packaging Solutions

These investments reflect our unwavering commitment to excellence, purity, and authenticity. Every product we craft at Paartha Ayurveda is backed by rigorous quality control, ethical sourcing, and adherence to classical formulations—delivered in a form that meets modern-day needs

OUR PHILOSOPHY

We believe that true wellness is achieved when ancient knowledge meets modern science. At Paartha Ayurveda, we don't just produce medicines—we create holistic wellness solutions rooted in nature and perfected by expertise.

LOOKING AHEAD

With a foundation of integrity, a commitment to quality, and a clear vision for the future, Paartha Ayurveda continues to grow—bridging tradition and transformation, and healing generations with the time-tested power of Ayurveda..

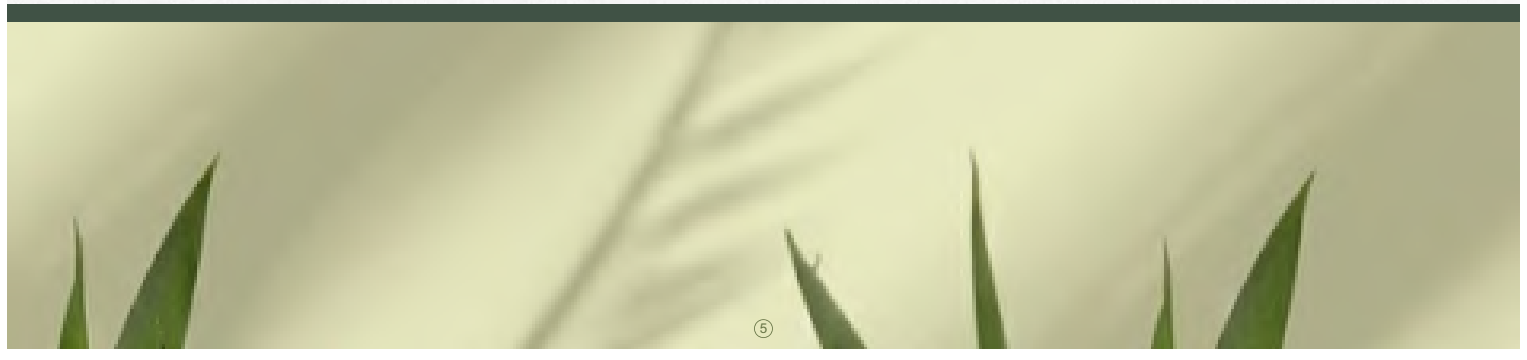

OUR MISSION.

To promote holistic wellness by delivering authentic, high-quality Ayurvedic products that blend time-tested traditional wisdom with modern scientific practices. We are committed to improving lives through natural healing, ethical sourcing, and continuous innovation in the field of Ayurveda.

OUR VISION.

To be a globally respected Ayurvedic healthcare company known for its integrity, research-driven innovation, and dedication to preserving the purity and legacy of Ayurveda—empowering individuals and communities towards a healthier, balanced, and natural way of life.
